

DRINKING WATER FOR SCHOOLS AND UNIVERSITIES

HOW CUSTOMERS BENEFIT FROM OUR INNOVATIVE SOLUTIONS

- **cost-effective solution** compared to bottled water (transport and recycling costs).
- **certified filter modules** secure excellent potable water quality (virus and bacteria free) which meet WHO regulations.
- outstanding **long-term service support** thanks to local service partners and/or service contracts.
- **simple operation** with low technical skill requirements.
- **health improvement leads to better quality of life** in general, less water borne diseases, more efficient students and a reduction of sickness absence.
